ODTU-Bilkent Algebraic Geometry

"Quivers I"

By

Emre Coşkun
(ODTÜ)

Abstract: In this series of talks, we shall introduce quivers and their representations and discuss their basic properties. We shall also discuss and prove (if time permits) Gabriel's theorem, which gives a complete classification of quivers of finite type.

Date: 21 February 2020, Friday
Time: 15:40 +
Place: Mathematics Seminar Room, SA- 141
Tea and cookie will be served before the talk. You are most cordially invited.
