

Quiz 06

NAME

- (1) The graph of $y = x^2$ between $x = 0$ and $x = 2$ is rotated around
- (a) the x -axis;
 - (b) the y -axis.
- Compute the volumes of the resulting solids.

Quiz 06

NAME

- (1) The graph of $y = x^2$ between $x = 0$ and $x = 2$ is rotated around
- (a) the x -axis;
 - (b) the y -axis.

Compute the volumes of the resulting solids.
